THE HIDDEN FAERY TRADITION IN SACRED MAGIC, The Angels of the Mother in the Earth.

Ancient Gnostic verses tell of the angels of the Father in Heaven and the angels of the Mother in the Earth. What does this mean to us in our spiritual and magical tra-

ditions? How can we understand the angels in the Earth today and, as modern people...how may we relate to them? R J Stewart will share with us his insights into myth legend and folklore, all of which reveal an ancient and powerful spiritual tradition of relating consciously to the living Earth. From Celtic faery tradition to the classical UnderWorld traditions of Titans and Giants to the mysterious and oft- misrepresented legends of fallen angels, all describe a *planetary consciousness* and ways of relating to living spiritual beings. While angels in heaven are

represented in orthodox religion and mysticism, the angels in the Earth are known mainly in esoteric sacramental teachings and traditions. In a time of increased planetary activity and a rapidly changing world, these potent spiritual forces rise to the surface, bringing new qualities of insight and illumination, if we are willing to commune with them consciously. *The weekend intensive workshop will include meditations, ceremony, and visualizations for attuning to and communing with the Angels of the Mother in the Earth. A special theme of this event will be: THE HIDDEN FAERY TRADITION IN SACRED MAGIC.*

R J Stewart is a Scottish author and musician living in California. He is the author of 42 books and many musical recordings. See www.rjstewart.org www.rjstewart.net & www.innerconvocation.com
