

Inner Temples Inner Convocation Retreat With R.J. Stewart and Anastacia Nutt.

Join us for the Autumn Equinox!

September 20-23, 2012 at Indralaya, on beautiful Orcas Island.

The perennial spiritual traditions teach that all things are composed of the Four Elements known to us as Earth, Air, Fire and Water; there is nothing within the wholeness of creation that is not of the Elements and of their deeper spiritual principles, the Roots of Life, Light, Love, and Law. In distant times, our ancestors built physical temples aligned to these all- pervasive powers of creation, and their planetary and stellar patterns. Today we may work with these same powers on the inner planes, through meditation, visualization, ritual and community co-creation.

Since the 1980s **R.J. Stewart** has developed and taught original techniques that enable men and women to connect to and co-create with the transcendent beings and transformative spiritual energies of the Inner Temples and Inner Convocation. He has established several long-standing groups throughout the USA and UK. R.J. is an author and composer, with 45 books in publication worldwide, and many television, film, and theater credits to his name. He has published several series of books on Celtic and Bardic tradition, on folkloric Faery tradition, and on sacromagical arts and disciplines. You can find his books and CD's at www.rjstewart.net and further information at www.rjstewart.org and www.innerconvocation.com.

Anastacia Nutt is a working Priestess, Seer and ordained trans-denominational Minister. Since 1997, she has worked to create and teach the ceremonial arts as well as facilitate public ritual through her home temple The StarHouse in Boulder, Colorado. Currently she travels and teaches with her beloved Robert, focusing on the Inner Temple Traditions, spiritual counseling and her new correspondence course, *Priest and Priestess Arts for the 21st Century*. You can find Anastacia's books and CD's at www.rjstewart.net, including her most recent title *The Mothers of Change*.

Join us during this special Autumn Equinox weekend at Indralaya, for a deeply inspiring and transformative immersion into all four Inner Temples and the Timeless Inner Convocation where our focus will be preparing for powerful changes over the next decade. This is the first all-inclusive retreat to be offered for many years, and the first ever in the Pacific North West.

We have a full program, but there will also be time for music song and storytelling.

Bring a musical instrument!

The Retreat will embrace us as a group and inform and inspire us as individuals, including:

- **Underworld Magic:**
 - Methods of attuning and reconciling humanity to the Elemental powers of the Four Hidden Realms of Nature.
 - Bridge-building to help remediate environmental affronts and work in a co-creative fashion with our allies in the Faery Realms.

- **Overworld Magic:** Discovering how to meet, commune, and work with ongoing spiritual contacts of high integrity and compassion.
 - New ways of experiencing the Universal Flame of Being that unites all Four Inner Temples in harmony, balance and grace.
 - In addition, we will work with new material from R.J.'s most recent book *The Sphere of Art Vol. 2, Purifying Fire* that includes remarkable alchemical and meditative practices, published for the first time.

- **The Practices of Sacred Service:**
 - **The Four Elements Within** meditations, group and individual practices and ceremonies unifying and harmonizing the co-creating balance of the Four Elements within our bodies and consciousness.
 - **Working the Arch of Heaven Prayer and Ceremony** for liberation of entrapped souls, purifying unhealthy locations, and as an individual meditation. This prayer or poem was received and written by R.J. in the 1970's and has appeared in several books (both his own and, with permission, by other writers). Classes on this are rarely offered.
 - **The Chalice of Love and Compassion. A group ritual for the Autumn Equinox of 2012:** attuning all Four Inner Temples within the powers of Love and Compassion and creating and empowering a collective chalice. The resulting chalice (an actual cup or vessel made especially for the retreat) will be circulated to group members throughout the following year, enabling each of us to tend and experience its grace in our each of own homes in turn.

We look forward to being at Indralaya again, and to working with you. Any questions about the content of the retreat? Email us at rjspeak@gmail.com
